## TEXAS LEAGUE GOSSIP.

(By Horace H. Shelton.)

Chellett, pitcher for Oklahoma, is pitching good ball. In a recent game he held the hard hitting Dallas Giants to one hit for nine innings.

Dutch Hendrickson, of Galveston, has been sold to Clark Griffith, of the Cincinnati Nationals. He will not report until the end of the season. He has been pitching some great ball lately.

Dallas went on the road without Woodburne, Torrey, Johnson or Thebo. These players will be in Dallas until the team comes through that city en route to Shreveport.

Schan, who is playing first base for San Antonio during the illness of Hohnhurst, is putting up a good exhibition.

Willie Wehrman, pitching for Bay City in the Southwest Texas league, has established a new record for organized baseball. He pitched both games of a double header, the first going nine innings and the second 12.

Donnelly, manager of the Sand Crabs, has again succeeded in putting a little ginger into the aggregation that he bosses, and the team is fighting hard for the first division.

With this present series at home it is probable that Oklahoma City will be able to climb into the .500 class. That will leave only Shreveport and Waco below that average.

Gordon, manager of the Waco baseball team, is crippled as a result of a finger being splintered by a foul tip.

McDonald, third baseman for Shreveport, is steadily climbing up in his batting averages. He is doing more hitting than any man on that team.

So far this season the Texas teams have sold six men to the big leagues and the season is young.

"Old Timer" Harbison is still playing steady ball from Waco at first. With a faster team he would be accounted a star.

## PEW'S

Only two runs were scored by Laredo, one in each game. Bay City won the games by one sided scores.

"Jeems" Maloney is again in the spot light since Dallas has made such a sport towards the top. It looks like the North Texas Irishman was in a fair way to capture a pennant.

Galveston is now crowding San Antonio for fourth place. Unless that team gets together there is no chance for it to get back into the first division.

Pittsburg tended to Texas Drucks the last game he pitched for New York against that aggregation. There were four hits which netted four runs. Three errors was the cause. New York failed to score.

McIver, of the San Antonio team is getting to be the handy man with the willow wand. It is seldom that he comes up with a man on base that he does not walk out a long hit.

## GO EASIES NOTE SUMMER'S WANE

Club Members Tour City in Special Car Accompanied by Band.

"We never work; we never will. We would our friends and work them still."

"G-O-E-A-S-I-E-S, Go-Easies."

Politicians and "plain people" More politicians and more P. observed the annual Go-Easies parade today, ending in the cool of Shobe's garden. It was in keeping with that celebration which is held annually to mark the official breaking of the backbone of summer.

Two hundred street cars, with a Mexican brass band booming away on the national airs of the sister republic, glided through the downtown streets early Friday evening with the Go-Easies and their friends on board. This was the annual pilgrimage of the faithful and the mecca was the summer garden with the usual band of summer garden refreshment.

Wacoan as First Master.

W. L. Wacoan, writing a merry widow hair cut and a golf club frequent and of ceremonies until his voice played a low down trick and went back on him. Then Tom Courchesne, who was the chief rider did the honors in his favorite blue and white Wacoan. How made the opening address and stated the purpose and plan of the Go-Easies club. This took out a few minutes as the entire constitution, by-laws and regulations are wrapped up in the compound name of the club.

Go easy is the Go-Easy motto and they went easy on most everything but liquid refreshments Friday night.

Joe Kelly sang a number of his ballads and returned to the club. In fact Joe was the most in demand of anyone present except the waiters and they were wanted for another reason.

The Mexican band was seated as a background for the performers on the pagoda platform and the band played a desperate effort to play "Has Anybody Here Seen Kelly?" to the tune of the Mexican national air.

Quintet and Others Sing.

The Go-Easies club which in reality was a quintet sang songs and the songs with frequent reference to an Irish man named Kelly. Charlie Pollock was made to do what Jeffries could not do and he sang a similar position at Churchill Downs. Louisville, also at Juarez, Mexico, is authority for the statement that Juarez will throw open her gates November 1. This, he states, is to meet the demands of the horsemen who, to use the vernacular, will be "rid out a place to lay their heads after September 1, the date when the fiscal year legislation is due to take effect in New York state. Win has instructed Lyman H. Davis, secretary of the association, to arrange a preliminary stake list for Juarez, that will bring the daily purse offerings up to \$3000. There will be 100 days of racing at Juarez.

# The "Don't Need To" Theory

In a recent debate at Reno Mr. James Jeffries failed to convince Mr. John Johnson.

Some seven or eight years ago Mr. Jeffries was the leading man in his line of work. Business was good and his profits were big.

Having all the money he could handle at the time, he concluded to take a rest. To be sure, he planned to get into the field again at the proper time.

But everything was rosy and there really seemed no good and sufficient reason why he should spend so many hours a day keeping his muscles lithe and strong and his mind good and his heart and nerves in trim.

Eventually the meeting with Mr. Johnson was arranged. Mr. Jeffries was still tolerably content with what he had done.

(Brother, a has-done is about as bad as a has-been.)

Mr. Jeffries did not care to stand up in the training ring and punch and take punches. He did not see any necessity of practicing side-steps and feints and rushes.

He knew all about them. Why, seven years ago he had done all of that he ever needed to do.

Mr. Johnson did not overlook the boxing and the wrestling and the clinching and the sidestepping, etc.

As a result, Mr. Jeffries received Mr. Johnson's compliments on the point of the jaw and his business career closed.

Advertising a business is the training of that business. Advertising keeps a business healthy.

It tones up its liver, strengthens its biceps, steadies its heart and keeps its nerves in order.

Once in a while a man decides that he is doing so much business that he can stop advertising for a while and run on momentum.

Momentum is the gradual process toward a full stop. The momentum business is usually prematurely full-stopped by the straight left jab of the well-trained competitor who finds his opening in the fifteenth round.

If you want to stay in business stay in the advertising field. No matter how much business you are doing, keep up the energy that makes it.

You might as well cut off your legs because you are running well in a foot race as to cut off your advertising because your business is too good.

You might as well tell the insurance man that you are so healthy you will drop the policy for a few years as to stop advertising because the orders are piling up.

"Don't need to" is the eventual preliminary to "Can't do it."

The only man who doesn't need to advertise is the man who has retired from business.

The only policy holder who doesn't need to pay his premiums is dead. Mr. Jeffries doesn't need to train any more. He is licked.

## WORKMAN FRACTURES ARM BY SPORT FALL

E. Stevens, Employed at the Fewel Buiding, Hurt Friday Night.

E. Stevens, an electrician working at the Fewel building fell from a ladder when going to work on the night shift Friday, after he had completed a day shift. Some workmen moved planks from under the ladder on which the man was perched, and Stevens tumbled to the boards, a distance of eight feet.

Stevens landed on his left arm, fracturing it in many places four years ago, and as a result is still badly crippled. The man was removed to Potter's drug store, and later to the office of Dr. W. B. Urmonst. While the formerly fractured bones were shaken about, Dr. Urmonst believes that no further fractures have resulted to the already unucky member.

Stevens is employed by the Standard Electric company. He lives on Lee and Moody streets.

## MAN IS ARRESTED AT PRISON DOORS

Charles Wieland Is Taken to Tombstone to Answer Old Charge.

Florence, Ariz., July 16.—Stepping from the prison door at Florence, believing himself a free man, Charles Wieland turned pale when a U. S. deputy marshal began reading a warrant issued out of the district court at Tombstone for his arrest on a charge of counterfeiting. Wieland took his arrest calmly, but did not conceal his disgust at the turn of fate, which has denied him the chance to carry out the plans he has been making during the past two years at Florence. He was arrested at Douglas and sentenced to the charge of boring gold from \$20 pieces and passing them. He has already served two years for part of the same alleged offense, but there are still several counts against him.

Fred Wieland, a brother, is now in the insane asylum at Phoenix, hopelessly insane. Wieland was brought to Tombstone for trial in the territorial court.
